

Install Golng in Ubuntu 18.04

Below are the steps to install golang in ubuntu 18.04 from tar file.

- Download latest go distribution from go download URL([from here](#)).

```
$ wget https://dl.google.com/go/go1.14.1.linux-amd64.tar.gz
```

- Extract distribution.

```
$ tar -xvzf go1.14.1.linux-amd64.tar.gz
```

- Move the directory to `/usr/local/lib`

```
$ sudo mv go /usr/local/lib/
```

- Update `mvn` alternatives.

```
$ sudo update-alternatives --install /usr/bin/go go /usr/local/lib/go/bin/go 1001
```
